Subject: Microsoft Settlement

To the United States Department of Justice:

I am urging you to settle the Microsoft antitrust case. The provisions of the agreement are tough, reasonable, fair to all parties involved and go beyond the findings of the Court of Appeals ruling. This settlement is good for consumers and for the American economy. We need to move on. This settlement is indeed in the public interest and I, as a consumer, believe it is critical that that we move beyond this litigation. Thank you.

Sincerely,

Bonnie Carlson
